Maxillofacial Prosthodontist. The position requires involvement in the treatment of medically compromised patients in the Oral and Maxillofacial Surgery/Hospital Dentistry clinics and operating rooms. The successful candidate must possess a strong commitment to predoctoral and postdoctoral education, clinical care and research. The Maxillofacial Prosthodontist will be an integral member of multidisciplinary teams engaged in rehabilitation of patients with unique craniofacial conditions, both congenital and acquired. A key component of the position will be involvement with clinical training, in all aspects of prosthodontics, of residents in graduate prosthodontics and the general practice residency. Opportunities and resources are available to support research productivity.

With many of its Colleges, Schools, Departments and Hospital having top ten national rankings, the University of Michigan provides an environment for interdisciplinary collaboration and faculty development that few places can match. This is an excellent place to build a career.

Candidates must have a DDS/DMD degree, be eligible to practice dentistry in the State of Michigan, and have completed an ADA-accredited postgraduate training program in prosthodontics. A fellowship in maxillofacial prosthetics is required, with the candidate being eligible for board certification. Candidates should have a strong interest in teaching and patient care. Research experience is valuable. A State of Michigan license is required; however, a Clinical Academic Limited License may be available for qualified candidates. Candidates must be eligible to work in the USA. Faculty practice opportunities are available. Salary and rank will be commensurate with experience and training.
