- Develop, implement, and evaluate the addition of social work services and interventions for patient care in the Orofacial Pain Clinic, addressing barriers and complexities of oral health care for vulnerable and underserved populations, including, but not limited to behavioral health needs, and complex psychosocial issues.
- Educate postdoctoral students and faculty to assess and include biopsychosocial domains of health in clinical care.
- Collaborate with UB School of Social Work and its Field Education Program to maintain the field placement site for social work student(s); providing direct supervision and coordination.
- Participate in project team meetings and activities, including curriculum development for postdoctoral education.
- Develop and deliver proper courses for the structured teaching of the pertinent behavioral health curricula in the field.
- Collaborate with project team members on dissemination activities including presentations at relevant dental and social work conferences and manuscript submissions for publication.

### **Outstanding Benefits Package**

Working at UB comes with benefits that exceed salary alone. There are personal rewards including comprehensive health and retirement plan options. We also focus on creating and sustaining a healthy mix of work, personal and academic pursuit - all in an effort to support your work-life effectiveness. We support your growth and development through our career coaching and training department and we qualify as a public service loan forgiveness organization.
