underserved areas while shaping the future of dentistry through excellence in education, discovery, and service,” our college continues to mature into one of the most innovative and exciting dental education programs available. UNE CDM with its dedicated and talented faculty and professional staff, exemplifies an environment of learning and discovery that is creative, humanistic, promotes professionalism, and cultivates diversity. The College maintains a strong commitment to providing excellent education and oral health care in a patient-centered, comprehensive care clinical learning environment.

UNE is a great place to work and we offer a generous comprehensive benefits package to eligible employees and their dependents. The package includes varied health and dental plans; a retirement plan that includes up to an 8% match; extensive paid leave including holidays, vacation, sick and personal time; and educational benefits for both employees and dependent children. Please visit the Human Resources Benefits site <https://www.une.edu/hr/benefits> for additional information regarding UNE’s fantastic benefits package.

The general/restorative dentistry faculty member will serve in the Department of Restorative & Clinical Sciences. Core responsibilities will include didactic, pre-clinical, and clinical instruction and curriculum development in general/restorative dentistry; fixed, removable, and implant prosthodontics; digital dentistry workflows and technologies; and occlusion. Mentoring pre-doctoral students and participation in scholarly activity and college, university, and community service are expected.

Academic rank and salary will be commensurate with qualifications and experience. Interviews of qualified candidates will begin immediately and continue until the position is filled.

Qualified candidates must possess a D.D.S./D.M.D. degree, or international equivalent and have successfully completed the NBDE Parts I & II or the INBDE and a regional licensure examination (e.g. ADEX). By the position start date, the candidate must have active Maine Board of Dental Practice licensure (full/faculty).

A broad scope of clinical experience (and/or completion of additional training) in general/restorative dentistry (including fixed, removable, and implant prosthodontics) and digital dentistry is required. Strong computer skills are essential to this position.
