Maintain and document dental records and assist with providing follow-up care

Manage referrals in the clinical for patients that require treatment through hospital-based care in an operating room setting, referrals to specialists outside the Tufts Special Care Dental Clinical Program (e.g. oral surgery, endodontics, etc.), and communication with patients and their advocates (parents, guardians, etc.) as needed.

**Job scope breakdown**

- o 90% Direct patient care
- o 5% Documentation of care provided in the electronic health record
- o 5% Communication with patient advocates as needed

**Qualifications**

Minimum requirements include a Doctor of Dental Surgery (DDS) or Doctor of Dental Medicine (DMD) (or foreign equivalent) with 1-2 years of relevant clinical patient care experience

Preferred requirements: 3-5 years of clinical experience beyond residency training and experience in the treatment of patients with special health care needs

Preference will be given to those who have experience working with patients with intellectual and developmental disabilities.

Experience evaluating patient care and coordinating patient treatment plans with parents, guardians, and caregivers

The candidate will be a team leader, an effective teacher and mentor, have excellent organizational skills, be self-motivated, able to manage his/her time efficiently and have excellent written and oral communication skills

**Application Instructions**

Please note that a CV, Cover Letter, and the contact details for three references are required.
